

LRS FEDERAL AWARDED 5-YEAR \$10M CORPS OF ENGINEERS CONTRACT

Annapolis, MD May 22, 2008 – LRS Federal LLC (LRS), a national Service-Disabled Veteran-Owned (SDVO) provider of program and project management services, was awarded a Multiple Award Task Order Contract (MATOC) by the Omaha District of the Corps of Engineers to provide Environmental Consulting Services for Environmental Compliance Projects. This contract has a five-year period of performance with a maximum value of \$10M and is targeted for use by the Corps of Engineers' Northwestern Division (Omaha, NE; Kansas City, MO; Walla Walla and Seattle, WA and Portland, OR Districts). The services to be provided include a wide range of environmental compliance services in the following areas including, but not limited to, environmental compliance, pollution prevention programs, environmental education, training, sustainable development, environmental management systems, Environmental Compliance Assessment and Management Program (ECAMP), Environmental Impact Analysis Process (EIAP), natural and cultural resource programs, comprehensive planning programs, geointegration, environmental assessment, baseline surveys, forestry, wildlife, archeology, Native American consultations, range management, remedial investigation, remedial design, long term maintenance, pilot studies and long term monitoring.

The environmental and engineering services to be performed under this contract will assist the Corps of Engineers and their clients in meeting military installation regulatory requirements. LRS Federal will provide the engineers, scientists, regulatory experts, public affairs specialists and other technical support required to address the complex state and federal regulatory environments at installations throughout the Northwestern Division.

LRS Federal is a Service Disabled Veteran-Owned Small Business (SDVOSB) with headquarters in Annapolis, Maryland. LRS offers consulting and technical services for their federal clients to assess, plan and implement projects that enhance the value of client assets. They specialize in environmental, construction management, information technology and financial/legal liability programs.

"This contract is a terrific opportunity for LRS Federal and our teaming partners to support our Government's commitment to environmental compliance with this diverse and talented team." said Sean Logan, LRS Federal CEO. "It is gratifying to receive the show of confidence expressed by the Corps of Engineers in making this award to our company. We will ensure that confidence is supported by our commitment to superior performance for the Corps and their clients."

LRS Federal is a well-established SDVO small business with offices in Maryland and Virginia. LRS projects are implemented at federal installations nationwide with a focus on environmental services, construction management and program/project management support.
